ITALY

To whom it may concern:

A little more than a year ago we installed a milk pasteurizer from Duecinox s.r.l. of Gustalla Italy. The machine has been used for over 1 year and continues to be used. The unit works extremely well and is reliable. The unit has met all of our expectations and has allowed us to use it in one large research study and now another study in progress. We hope to publish data that will show the value of using pasteurized milk for dairy calves.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jud Heinrichs".

Jud Heinrichs  
Professor of Dairy Science
